Windows 10 Pro

With Windows 10 Pro, you've got a great business partner. It has all the features of Windows 10 Home, plus important business functionality for encryption, remote log-in, creating virtual machines, and more. Get fast start-ups, a familiar yet expanded Start menu, and great new ways to get stuff done, plus innovative features like an all-new browser built for online action and Cortana, the more personal digital assistant.

Right for business

You can connect to your business or school Domain or Azure Active Directory to use network files, servers, printers, and more. Get additional security with BitLocker to help protect your data with encryption and security management. Windows 10 enables you to log in with Remote Desktop to sign in and use your Pro PC while at home or on the road. Create and run virtual machines with Hyper-V so you can run more than one operating system at the same time on the same PC.

Make the web work the way you do

Microsoft Edge lets you move quickly from browsing to doing. Write or type notes directly on web pages and share them with others, read online articles free of distraction, and save your favourite reads for convenient access later. And with Cortana enabled, you can highlight an unfamiliar term to get a contextual explanation that doesn't take you away from where you are.

Multi-doing helps you get to "done faster"

Get to done faster by better managing your desktop. Snap up to four things on one screen at the same time and create virtual desktops whenever you need more space or want to group things by project, like Office apps for work and games for play.

It's the most personal Windows yet

Cortana works across your day and your devices to help you get things done. By learning more over time, Cortana becomes more personal and useful to you. Cortana's also great at reminders, delivering them at the right time and place so you forget less and can do more.

Any device can carry your content, but only Windows gives you a truly personal experience. With Windows Hello, your device authenticates and recognizes you based on your presence, providing extra security, convenience and even a friendly hello.

System requirements:

Processor	1 gigahertz (GHz) or faster processor or SoC
RAM	2 GB for 64-bit
Hard disk space	20 GB for 64-bit OS
Graphics card	DirectX 9 or later with WDDM 1.0 driver

Cortana is only currently available on Windows 10 for the United States, United Kingdom, China, France, Italy, Germany and Spain.

An Internet connection is required to perform the upgrade. Windows 10 is a large file about 3 GB and Internet access (ISP) fees might apply.

The upgradeability of a device includes factors beyond the system specification. This includes driver and firmware support, application compatibility and feature support, regardless of whether or not the device meets the minimum system specification for Windows 10.

If the anti-malware application is compatible and current, your application will be preserved during the upgrade to Windows 10.

Windows 7 desktop gadgets will be removed as part of installing Windows 10.

The number of applications that can be snapped will depend upon the minimum resolution for the application.

To use touch, you need a tablet or a monitor that supports multi-touch.

Microsoft account required for some features.

Some games and programs might require a graphics card compatible with DirectX 10 or higher for optimal performance.

OEM Software Notice:

- To purchase OEM System Builder software, you must be a System Builder and accept the System Builder License. "System Builder" means an original equipment manufacturer, an assembler, a Refurbisher, or a software preinstaller that sells the Customer System(s) to a third-party. OEM software may ONLY be distributed with a fully assembled computer system.
- For a desktop operating system or application software, the software also must be preinstalled on the hard drive of the fully assembled computer system, using the OEM Preinstallation Kit (OPK).
- The system builder who installs the software is responsible for the provision of end-user support

It's the Windows you know, only better

You're already an expert

Windows 10 is so familiar and easy to use, you'll feel like an expert. The Start Menu is back in an expanded form, plus we'll bring over your pinned apps and favorites so they're ready and waiting for you.

It starts up and resumes fast, has more built-in security to help keep you safe, and is designed to work with software and hardware you already have.

It's how the doing gets done

The web that works the way you do

Windows 10 comes with Microsoft Edge, an all-new browser that's built to give you a better web experience. Write or type notes directly on webpages and share them with others, read online articles free of distraction, and save your favorite reads for later access. And with Cortana enabled, you get instant access to key actions—like making reservations or reading reviews—without leaving the page you're on.

Multi-doing helps you get to "done" faster

Easily snap up to four apps in place and see all open tasks in a single view. You can even create virtual desktops when you need more space or want to group things by project.

Windows Store is your one-stop shop

Introducing the new Windows Store, a unified shopping experience across every Windows 10 device. Browse the store on your PC, tablet, or phone and easily purchase great digital content including apps, games, music, movies and TV shows.

It's the most personal Windows yet

Meet Cortana, your truly personal digital assistant

Cortana works across your day and your devices to help you get things done. By learning more over time, Cortana becomes more personal and useful to you. Cortana's also best at reminders, delivering them at the right time and place so you forget less and can do more.

Interact with your device however you want

Touch, type, write: the choice is yours so you can use whatever works best for what you're doing.

Flexibility to work how you want

The best screen is always the one you're on

Windows 10 enables your apps to look and work great in all modes, on all devices. On 2-in-1 devices, your screen can be optimized to work with touch or keyboard and mouse.

Xbox is coming to Windows

Get the biggest Xbox franchises with the best of Xbox Live. Start recording gameplay in seconds, compete against console players, and stream games from your Xbox One console to your Windows 10 device from anywhere in your home.

Great apps come standard

Windows 10 comes with great built-in apps like Maps, Photos, Mail & Calendar, Music, and Video. And these apps use OneDrive to back up your information and sync seamlessly across your Windows 10 devices, so you're never far from what you need.
