Overview:

Microsoft Office 2021 Professional Plus is a complete suite that includes everything you need to be productive at any stage. Whether it's processing paperwork or creating presentations from scratch, this powerful and versatile package has your back.

New features like AI-powered templates, intelligent lookup, an entirely new interface, as well as improved compatibility between apps across all platforms mean more opportunities for your skills to shine! Create, collaborate and share your projects within your organization and outside of it with ease.

The new, most powerful generation of Microsoft Office provides professional-grade support in every aspect; whether working on projects alone or collaborating closely together — there's no challenge too big when using Office 2021 Professional Plus. With industry-standard, cutting-edge technology on your side, you'll be able to tackle even the most complex projects.

The best of it all? You get way more than the essentials. The Professional Plus suite was built with your needs in mind. It includes every tool and every solution you'll need in just about any field of work. Need to put together a compelling business proposal? Use Word. Time for the annual revenue analysis? Excel is here for you. Need something more? Check out the other apps!

Office 2021 Professional Plus is everything you need to handle data and documents. The new features will make you more productive in every stage of development, whether it's processing paperwork or creating presentations from scratch.

Microsoft Excel 2021

Microsoft Excel 2021 is the most comprehensive and easy-to-use spreadsheet application in today's market. Take your data analysis skills up a notch with all of these new features that were made just for people like yourself!

Excel 2021 extends the limits of what was previously thought possible. You can now go beyond ideas and create complex, professional spreadsheets with ease!

Use your data to its fullest. Analyze information quickly and easily. People from any occupation or country around the world can have access to better decision-making skills based on findings from their Excel spreadsheets!

New functions. Powerful new functions allow you to manipulate and work with your data in more ways. Newly introduced functions include LET() and XLOOKUP() in Excel, with many more to come!

Stability and performance improvements. Excel's improved performance makes working on large sets easier than ever before, thanks to its faster speed in both calculation and navigation.

Microsoft PowerPoint 2021

PowerPoint 2021 is perfect for people who want to create engaging presentations and actually share them in a way that gets more attention than before. With improvements made by Microsoft themselves as well as new features being added — you can't go wrong!

Be creative, be professional. The best presentations are the ones where you can let your imagination flow. PowerPoint 2021 lets you do just that, but it still maintains a professional tone for all sorts of scenarios.

Master of the craft. Presentations are the best when they flow from one thing to another in an entertaining manner. PowerPoint 2021 allows you to keep your presentations fresh and interesting with tools, animations, transitions!

Insert new icons and 3D models. Work with an expanded library of SVG icons to make your work stand out from the rest!

Choose between professionally designed ones, or upload your own if you're feeling creative.

PowerPoint 2021 makes you feel heard. Now, your presentations can have a more personal touch with recording narration from the program itself — no need to find an outside source or invest time into recording yourself in a separate app!

Microsoft Outlook 2021

Emails are the backbone of modern communication. You need to be able to see through them clearly, and have access even when you're on the go! Outlook 2021 improves all aspects of emailing including formatting, contacts, and attachments.

Focus your inboxes. See the most important emails as soon as you open Outlook. With the Focused Inbox feature, you'll never get lost in casual conversations and junk mail.

Send professional messages. The tools in Outlook make it easy to send professional emails even when you're in a hurry. Use the integrated grammar and spell checker, formatting, and more advanced features like signatures, attachments, etc.

Plan ahead effectively. Outlook allows you to make use of a detailed calendar where you can add events, plan meetings, and even sync schedules with someone else!

Can people with an eariler version of office open documents I created using Microsoft365 or office 2021?

Microsoft 365, Office 2021, Office 2019, Office 2016, Office 2013, Office 2010, Office 2007, Office for Mac 2011, and Office for Mac 2008 applications can open your documents without any additional action. Customers using earlier versions of Office may need to download and install a compatibility pack.

What is the different between Microsoft365 subscription plans and Office as a one-time purchase?

Microsoft 365 is a subscription that comes with premium apps like Word, Excel, PowerPoint, OneNote, Outlook, Publisher, and Access (Publisher and Access available on PC only). The apps can be installed on multiple devices, including PCs, Macs, iPads, iPhones, Android tablets, and Android phones. Microsoft 365 also comes with services like 1 TB of OneDrive storage, 60 Skype minutes per month, and Microsoft chat and phone support. With a subscription, you get the latest versions of the apps and automatically receive updates when they happen.

Office 2021 is a one-time purchase that comes with classic apps like Word, Excel, and PowerPoint for PC or Mac, and does not include any of the services that come with a Microsoft 365 subscription. One-time purchases don't have an upgrade option, which means if you plan to upgrade to the next major release, you'll have to buy it at full price.
